

Satellite-Air: Features

- An cost effective and compact sensor.
- Measurement range from 1E-26 ppm to 100% of air.
- Measurement Range: 1E-8Torr ~ 760 Torr
- Differential pumping station is not required.
- Plug and play, replaceable sensor head.
- Long sensor head life time, typically 17,500 hours in clean gases.
- Can combine with H2O sensor for moisture monitor
